Management	MS	30	5	\$775	\$450	\$850	\$50	\$175	\$24,775
Organizational Leadership	MS	30	5	\$775	\$450	\$850	\$50	\$175	\$24,775
Service Sector Management	MS	30	5	\$775	\$450	\$850	\$50	\$175	\$24,775

I understand that total program cost may be impacted by approved transfer credits or needed prerequisite coursework. Any changes to tuition and fees will be published to students as they are made. Please refer to Academic Catalog Tuition and Fee Schedule for residency cancellation fees and penalties.

† Based on the current credit hour rate. Total cost will increase per credit hour tuition and other cost increase. Estimated Total Cost includes a Graduation Fee of \$175 (charged one time at the end of the program), a technology fee for of \$15/Undergraduate student (charged per credit hour), and program specified fees.

Not all courses include a Digital Textbook. Courses that include a Digital Textbook will be noted in the registration material and the Digital Textbook will be charged in addition to tuition unless the student chooses to opt out. The Digital Textbook costs are \$15.00 per course (undergraduate), \$85.00 per course (Master's) and \$95.00 per course (doctoral). Students that do not opt out will not need to purchase textbooks for courses using a Digital Textbook. The purchase of the Digital Textbook is not refundable. Students that do opt out will be issued a credit to the student account for the cost of the book and will be responsible for purchasing the required textbook. If a course does not use a Digital Textbook, the student is responsible for purchasing the required textbook.

Includes \$20.00 Professional Liability Insurance fee.

Includes \$1,006 Clinical Psychology Retreat/Internship, and \$20.00 Professional Liability Insurance fees.

Includes \$20.00 Professional Liability Insurance fee.

Includes a \$20.00 Professional Liability Insurance fee.

Residency fees for the doctoral programs are inclusive of Residency I and Residency II billed at \$900 each, for students taking the online Residency courses only.

Residency fees for the doctoral programs are inclusive of Residency I and Residency II billed at \$900 each, for students taking the online Residency courses only.

Students applying to the RN to BSN Degree Program may transfer a maximum of 90 semester credit hours. Only 78 semester credit hours of lower division or two-year college coursework will be accepted for transfer credit. Students with a valid RN license will have 12 block credits for the license applied towards the upper division nursing elective requirements. This transfer credit will reduce the total tuition and fees for the BSN program. For example, students applying to the BSN Degree program with an associate degree in nursing and a license to practice may be awarded the following credit hours as a block transfer: 30 credits of lower division nursing coursework, 42 credits of general education (lower division) and 12 credits of upper division elective credits for the license totaling 84 credits. This may reduce the program to 36 credits.

Students applying to the Bachelor of Science in Medical Technology degree program may transfer up to 90 credit hours distributed as follows. Up to 75 credit hours may be transferred from a National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Up to 75 credit hours of lower division or two-year college coursework will be accepted for transfer credit hours. Students with fewer than 30 credit hours in general education courses will be required to complete 30 credit hours in the proper general education distribution areas. This transfer credit will reduce the total tuition and fees for the BS in Medical Technology degree program.

Tiered Tuition Structure

Students who persist and successfully earn academic credits in their educational programs* are eligible for a reduced tuition structure that decreases the students' actual tuition.

Associate's-level programs

Based on the length of the associate degree program, students will receive a tuition reduction by 10% to 15%[†]. Students may qualify as long as they remain enrolled and participate in an eligible program of study, making them eligible for the reduced tuition within the program. Program lengths vary in the number of credits required. This reduction will occur once the following thresholds are reached:

- Students who complete greater than 30 credits will receive a 10% tuition reduction[†]
- Students who complete greater than 60 credits will receive a 15% tuition reduction[†]

All other Bachelor's-level programs:

Students who persist and successfully earn academic credits in their educational programs* are eligible for a tiered tuition structure that decreases the students' actual tuition cost, ranging from 10%-20%[†]. Students may qualify as long as they remain enrolled and participate in an eligible program of study, making them eligible for the tiered tuition at different thresholds within the program. This reduction automatically occurs as students reach the following thresholds:

- Students who successfully earn greater than 25% of the credits in their program will receive a 10% tuition reduction[†]
- Students who successfully earn greater than 50% of the credits in their program will receive a 15% tuition reduction[†].
- Students who successfully earn greater than 75% of the credits in their program will receive a 20% tuition reduction[†].

Program lengths vary in the number of credits required; the tuition credit occurs once credits earned surpass the percentages above

Reductions in tuition are applied at the beginning of each term (semester). If the percentage of earned credit above is reached after the term starts, the reduction will occur at the start of the next term. All reductions' calculations are based on the original cost per credit hour.

For the purpose of eligibility for reduced tuition, transfer of credits that are accepted by the institution into a student's specific program of study will qualify towards credits that are successfully earned. If transfer of credit is received after a term begins, the reduction will occur at the start of the next term.

* *The Bachelor of Science in Nursing program and all graduate programs are not eligible for tiered tuition.*

[†] *Students utilizing partnership agreements or enrolling as a Continual Transfer Waiver will not be eligible for the reduced tuition. The students will receive the tuition reduction as outlined in the partnership agreement or transfer waiver.*
