Please visit our Student Consumer Information page to find the average time to completion for continuously enrolled students for each credential level offered. This data is available at the average credit load, full time, or at full load. Changing programs, taking remedial courses, taking time off from coursework, registering for fewer hours or unsuccessful attempts at course completion will increase the total length of the program and overall cost of education from what is disclosed. Transfer credits awarded toward your program will likely decrease the overall length and cost of education.

<sup>1</sup>Technology Fee: \$15.00 per credit hour.

<sup>2</sup>Not all courses include a Digital Textbook. Courses that include a Digital Textbook will be noted in the registration material and the Digital Textbook will be charged in addition to tuition unless the student chooses to opt out. The Digital Textbook costs are \$15.00 per course (undergraduate), \$85.00 per course (Master's) and \$95.00 per course (doctoral). Students that do not opt out will not need to purchase textbooks for courses using a Digital Textbook. The purchase of the Digital Textbook is not refundable. Students that do opt out will be issued a credit to the student account for the cost of the book and will be responsible for purchasing the required textbook. If a course does not use a Digital Textbook, the student is responsible for purchasing the required textbook.

<sup>3</sup> Based on the current credit hour rate. Total cost will increase per credit hour tuition and other cost increase. Estimated Total Cost includes a Graduation Fee of \$175.00 (charged one time at the end of the program), a technology fee of \$15/Undergraduate student (charged per credit hour), and program specified fees.

I understand that total program cost may be impacted by approved transfer credits or needed prerequisite coursework. Any changes to tuition and fees will be published to students as they are made. Doctoral students with a residency are subject to residency cancellation fees of 10% (cancellation 14-29 days prior to start) and 50% (cancellation 13-0 days prior to the start or lack of initial attendance).

<sup>4</sup>Approximate tuition and fees is based on the current credit hour rate. Total cost will increase with each per credit hour tuition increase.

<sup>5</sup> Beginning September 15, 2016, Argosy University began using Psychology Centralized Admissions System (PSYCAS). PSYCAS is a centralized application service supported by the American Psychological Association (APA) and Liaison International. Instructions on how to use PSYCAS and how your admissions documents will be uploaded and delivered to PSYCAS for processing can be found in the application: <https://psycas.liaisoncas.com/>. Students should create an account for free on the PSYCAS web site <https://psycas.liaisoncas.com>. Creating an account is free. However, there is a \$50 fee to PSYCAS for the first application. If a student is applying to other programs utilizing PSYCAS for the admissions process, an additional \$35 fee is charged for each additional application.

# PROGRAM COST SHEET

---

<sup>6</sup>Programs include \$1,162 Clinical Psychology Retreat/Internship, \$100 Testing Kit, and \$20.00 Professional Liability Insurance fees.

<sup>7</sup>Program includes \$20.00 Professional Liability Insurance Fee.

<sup>8</sup>Residency fees for the doctoral programs are inclusive of Residency I and Residency II billed at \$900 each, for students taking the online Residency courses only.

The current STRF charge is \$0.00

The STRF rate is subject to change based upon the balance in the STRF account. Statute requires the Bureau begin collecting if the balance falls below \$20 million (\$20,000,000.00) and caps the account at \$25 million (\$25,000,000.00). Please see the office of admissions for questions regarding the assessment of the STRF fee. Because this institution participates in the STRF, students who are otherwise eligible are protected by STRF regardless of whether the fee is assessed. STRF fees are currently a one-time non-refundable charge of \$0.00 per \$1,000 of institutional charges, rounded to the nearest thousand dollars; but this amount is subject to change.

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss.

Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment if you are not a California resident, or are not enrolled in a residency program.

# PROGRAM COST SHEET

---

## Tiered Tuition Structure:

Students who persist and successfully earn academic credits in their educational programs\* are eligible for a reduced tuition structure that decreases the students' actual tuition.

### Associate's-level programs

Based on the length of the associate degree program, students will receive a tuition reduction by 10% to 15%<sup>†</sup>. Students may qualify as long as they remain enrolled and participate in an eligible program of study, making them eligible for the reduced tuition within the program. Program lengths vary in the number of credits required. This reduction will occur once the following thresholds are reached:

- Students who complete greater than 30 credits will receive a 10% tuition reduction<sup>†</sup>
- Students who complete greater than 60 credits will receive a 15% tuition reduction<sup>†</sup>

### All other degree programs:

Students who persist and successfully earn academic credits in their educational programs\* are eligible for a tiered tuition structure that decreases the students' actual tuition cost, ranging from 10%-20%<sup>†</sup>. Students may qualify as long as they remain enrolled and participate in an eligible program of study, making them eligible for the tiered tuition at different thresholds within the program. This reduction automatically occurs as students reach the following thresholds:

- Students who successfully earn greater than 25% of the credits in their program will receive a 10% tuition reduction<sup>†</sup>
- Students who successfully earn greater than 50% of the credits in their program will receive a 15% tuition reduction<sup>†</sup>.
- Students who successfully earn greater than 75% of the credits in their program will receive a 20% tuition reduction<sup>†</sup>.

Program lengths vary in the number of credits required; the tuition credit occurs once credits earned surpass the percentages above

Reductions in tuition are applied at the beginning of each term (semester). If the percentage of earned credit above is reached after the term starts, the reduction will occur at the start of the next term. All reductions' calculations are based on the original cost per credit hour.

For the purpose of eligibility for reduced tuition, transfer of credits that are accepted by the institution into a student's specific program of study will qualify towards credits that are successfully earned. If transfer of credit is received after a term begins, the reduction will occur at the start of the next term.

*\* The Bachelor of Science in Nursing program and all graduate programs are not eligible for tiered tuition.*

*<sup>†</sup> Students utilizing partnership agreements or enrolling as a Continual Transfer Waiver will not be eligible for the reduced tuition. The students will receive the tuition reduction as outlined in the partnership agreement or transfer waiver.*
